Dear Ethel and Jimmy.

We recieved your letter yesterday and are glad to hear that things are shaping so that you will be coming soon. We are sorry that you can't come sooner but everything does not go to suit our likings when we want to make a change do they. I thought I would never get over hear and get started. I wanted to get started so bad and yet at times it would seem like a mirage in the distance that never got nearer. I hope we will be seeing you soon.

About the school Jimmy you can start any day of any week. The reason that they can do that is that they assign a definite amount of work to each student and as soon as they do it all and get it passed the course is finished. They only have school five days a week and three nites. Nite classes are from 7:00 till 9:30 -- I use to go to nite classes some times because it seemed I could do more when there was not any interfearence. They don't care whether you go at nites or not it is mainly for people that work days that they hold nite classes. The Address of the school is Warren school of Aeronautics, 18th and Olive, Los Angeles, California. I went down to the school yesterday and told them about your coming and the cost for the school will be just about \$45.

About your offer to bring dishes we are sorta short there because most of ours are in Chandler. So if you have room it would help if you would bring anything in the way of pans and bowls. Mainly large pans and small bowls. We are very short on cerial bowls. We have one to be exact.

(over)

Well it looks like I ran out of paper  
and it is about time to start getting  
ready for work so I guess I'll have to  
finish with a pen.

About living expenses for rent we  
have decided that we will charge you \$8.00  
for the first month, \$4.00 the second and  
nothing from there on out. Groceries should  
not run over \$6.00 wk. And utilities won't  
cost over \$1.50 per month but I haven't gotten  
one yet. We will be looking for a letter from  
you.

Yours. Harry, Mary & Julia
